

5th Saturday Field Shoot

May 30, 2015

Ten archers arrived bright and early on May 30th for the Free Fifth Saturday of the Month Field archery shoot. These free shoots are intended to introduce archers to the FITA and NFAA style of field archery. Archers learn the scoring and the basic rules and shoot from the markers appropriate to the FITA and NFAA rules, and for their experience levels. The shoot is open to all shooters.

This Saturday also marked the first 100+ degree day of the year. We started at 7:40 and finished at 12 and the temperatures were over 90 degrees and the heat was affecting everyone. In field archery, hats are always recommended as well as water. We had water, and we drank it all!

The Results: (532 would be a perfect score.)
